The **Blindware** range of base rails includes standard round and oval, and our new Deluxe range. Deluxe base rails are perfect for use with **ZeroGravity** as a premium option or an upsell for general purpose blinds. Our Deluxe base rails have a silicon bumper with a unique built-in air cushion, which doesn't just reduce noise, it removes it completely. No banging or dull thudding, just complete silence- perfect for bedrooms, boardrooms or anywhere that needs peace and quiet.

The Flat Deluxe base rail can be used with the **SunBoss** cassette with side channel systems.
