

PRODUCT OVERVIEW

The **SunBoss** 80mm Cassette System has been designed for superior light blocking performance. Like all products in the **SunBoss** range, it is modular by design, offering more options and benefits for users and installers.

The 80mm Cassette System incorporates a modern square lined shape and features 2 piece cassette and 2 piece side channels. The cassette can be easily fitted using inside or outside mounting. The cassette features plastic wrap around end covers or alternatively metal end covers perfectly matched to the finish of the headbox and side channel profiles.

FEATURES & BENEFITS

LIGHT BLOCKING DESIGN	Superior light blocking performance through: <ul style="list-style-type: none"> • Wrap around side channel option • Felt lined side channels • Fully overlapping design
VERSATILITY	<ul style="list-style-type: none"> • Use as cassette only or cassette with side channels • Bracket or direct mounting options • Suitable for inside or outside mounting
WIDE RANGE OF LIFT OPTIONS	<ul style="list-style-type: none"> • Chain, Chain plus spring assist • ZeroGravity chainless • Motorised (AC or DC) operation • Spring return blind
MULTI-LINKED	<ul style="list-style-type: none"> • Centre link brackets options for multi linked or pin to pin connection • Double centre channel option standard
COLOURS AVAILABLE	<ul style="list-style-type: none"> • 3 colours specially formulated colours: <ul style="list-style-type: none"> - Matte White - Matte Black - Clear Anodised • Mill finish available for custom colours

BETTER BY DESIGN

Closure problems caused by excessive powder coat build-up are a thing of the past. The unique clasp design between the front and rear cassette profiles ensures ease of assembly no matter how much powder coat has been applied, even if sections have been double coated for colour change.

COMPONENTRY

While the standard cassette layout uses a conventional flat base rail and side channels, there is a second configuration easily achieved that uses the same side channels to form a bottom channel, making the cassette system 360-degree wrap-around and fully light blocking. A patented corner block seamlessly joins the sections at the bottom corners to create a perfect connection.

DEDUCTIONS

Clutches: Use 32mm, 38mm FastRise, 38mm Direct Drive and 38mm Geared
Motorised: Motolux Gen 3 motors – add 3mm to clutch end only
Pin Ends: Use standard
Tube Adapters: Use 43mm and 50mm as needed
Covers: Refer to below tables

NOTE: DIMENSIONS "F1" RELATES TO RECOMMENDED FABRIC DEDUCTIONS.

CASSETTE ONLY				DIMENSION 'B'		
Plastic end covers				TIGHT	IDEAL	LOOSE
Tube Dia.	A	B	F1
